Quantitative researcher and economist with 6+ years of experience in integrated environmental-economic modelling and environmental impact assessment. Extensive experience applying quantitative modelling approaches to explore mitigation options towards sustainable food systems. Dissertation on assessing the impacts of food system transformation options (i.e., supply-side and demand-side measures, and environmental policies) at the macro level (i.e. regional, national, and global levels) using the integrated environmental-economic modelling approach based on the general equilibrium framework. 9 scientific papers have been published in peer-reviewed journals. One first-authored paper published in **Environmental Science & Technology (JCR: Q1; IF= 11.4)** and one co-authored paper published in **Nature Food (JCR: Q1; IF=23.2)**.

EDUCATION

PhD Candidate of Economics in Environmental and Natural Resource Economics Expected 09/2025 Wageningen University & Research Wageningen, The Netherlands

- Dissertation: Integrated environmental-economic modelling of sustainable food systems in China
- Committee: Xueqin Zhu, Hans-Peter Weikard, Oene Oenema, Yong Hou

Visiting PhD Student

10/2024-01/2025

University of California, Davis

Davis, California, United States

Supervisor: Luis M. Peña-Lévano

Visiting PhD Student

China Agricultural University

09/2020-09/2021

Beijing, China

Supervisor: Yong Hou

Master of Agriculture in Plant Nutrition

China Agricultural University

09/2018-06/2020

Beijing, China

- Dissertation: Nitrogen footprint of China's pig production and feeding mitigation measures
- Committee: Yong Hou

Bachelor of Agriculture in Agricultural Resources and Environment

Hunan Agricultural University

09/2014-06/2018

. Changsha, China

• Dual Bachelor of Arts in English

RESEARCH INTERESTS

- Integrated environmental-economic modelling
- Sustainable food provision and food-land-water-climate nexus
- Environmental impact assessment of the food chain

WORKING PAPERS

- Long, W., Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (Major revision at Sustainable Production and Consumption, JCR: Q1, IF=12.1). How can sustainable food production and consumption in China be achieved?
- Long, W., Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (*Job Market Paper*, *Submitted to a Peer-reviewed Journal*). The asymmetric impacts of feeding China's monogastric livestock with food waste on food security and environment sustainability.

WORK IN PROGRESS

- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (*In Preparation*). <u>Food system transformation is key to achieving food security and environmental sustainability in China</u>.
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (*In Preparation*). Exploring transformation options in the food-land-water-climate nexus: towards achieving multiple Sustainable Development Goals (SDGs) in China.

TEACHING EXPERIENCE

Teaching Assistant, Wageningen University & Research

- ENR32806: Economic modelling of sustainability challenges (with Xueqin Zhu & Jack Peerlings), Master level, 6 ECTS.
 Spring semester 2023 & 2024
- ENR22806: Principles of climate change economics and policy (with Xueqin Zhu & Ina Möller), Master level, 6 ECTS.

MENTORING EXPERIENCE

MEN I ORING EXPERIENCE				
Co-supervisor of Master Thesis, Wageningen University & Research				
 Master thesis: Kehan Qiu (with Rolf Groeneveld) 	12/2023-06/2024			
 Master thesis: Huangshu Zhao (with Hans-Peter Weikard) 	03/2023-09/2023			
Master thesis: Jia Zhou (with Xueqin Zhu)	03/2022-09/2022			
Chair of Master Thesis Ring, Wageningen University & Research				
 Organised weekly meetings for Master students to discuss their written thesis 	01/2022-12/2022			

SERVICE AND MEMBERSHIP

Conference Parallel Session Chair

• 29th Conference of European Association of Environmental and Resource Economists (EAERE) 07/2024 **Conference Abstract Reviewer**

•	2024 Agricultural and Applied Economics Association (AAEA) Annual Meeting	02/2024
Co	nference Organising Committee	

• 7th Sino-Dutch Agriculture Green Development (AGD) Symposium 02/2023

Professional Association Membership

- American Economic Association (AEA)
- Agricultural & Applied Economics Association (AAEA)
- Association of Environmental and Resource Economists (AERE)
- European Economic Association (EEA)
- European Association of Agricultural Economists (EAAE)
- European Association of Environmental and Resource Economists (EAERE)
- International Association of Agricultural Economists (IAAE)
- International Food And Agribusiness Management Association (IFAMA)
- International Society for Ecological Economics (ISEE)
- International Society for Industrial Ecology (ISIE)

CONFERENCE PRESENTATIONS

- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (07/2024). Quantifying the environmental and economic impacts of feeding China's monogastric livestock with food waste: a general equilibrium approach. Oral presentation delivered at the 29th Annual Conference of EAERE, Leuven, Belgium.
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (06/2024). Quantifying the environmental and economic impacts of feeding China's monogastric livestock with food waste: a general equilibrium approach. Oral presentation delivered at the III Economy for The Common Good International Conference (ECGIC), Leeuwarden, Fryslân, The Netherlands.
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (05/2024). The asymmetric impacts of feeding China's monogastric livestock with food waste on food security and environment sustainability. Oral presentation delivered at the 9th Sino-Dutch AGD Symposium, Wageningen University & Research, Wageningen, The Netherlands.
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (08/2023). Integrated Environmental-economic modelling of sustainable food systems in China. Poster presentation delivered at the XVII EAAE Congress, Rennes, France.
- **Long, W.,** Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (07/2023). Integrated Environmental-economic modelling of sustainable food systems in China. Oral presentation delivered at the EAERE Summer School, University of Graz, Graz, Austria.
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (02/2023). Environmental trade-offs of dietary structure change can be alleviated by cleaner technology and emission restriction. Oral presentation delivered at the 7th Sino-Dutch AGD Symposium, Wageningen University & Research, Wageningen, The Netherlands.
- Long, W., Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (10/2022). An environmental-economic framework for assessing the impacts of adjustments in crop and livestock systems. Oral presentation delivered at the Wageningen School of Social Sciences (WASS) PhD Day, Wageningen University & Research, Wageningen, The Netherlands.

SEMINAR TALKS

- Long, W., Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (04/2024). Quantifying the environmental and economic impacts of upcycling food waste in China's monogastric livestock production: a general equilibrium approach. Oral presentation delivered at the EconMonday Weekly Lunch seminar, Wageningen University & Research, Wageningen, The Netherlands.
- (Invited) Long, W. (12/2023). Food system environmental policy analysis and method application. Oral presentation delivered at the Plant Nutrition Weekly Seminar, China Agricultural University, Beijing, China (Online).
- **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (06/2023). Exploring options for sustainable food systems in China: An integrated environmental-economic modelling approach. Oral presentation

delivered at the EconMonday Weekly Lunch seminar, Wageningen University & Research, Wageningen, The Netherlands.

• **Long, W.**, Zhu, X., Weikard, H.P., Oenema, O., Hou, Y. (11/2022). The global environmental consequences of adjustments in the food systems in China. Oral presentation delivered at the EconMonday Weekly Lunch seminar, Wageningen University & Research, Wageningen, The Netherlands.

TRAINING COURSES

EAERE Summer School in Resource and Environmental Economics	07/2023
University of Graz	Graz, Austria
Transnational and Cascading Climate Risks and Adaptation	
Dynamic General Equilibrium Modelling Course	07/2021
Victoria University & University of International Business and Economics	Beijing, China
• CHINAGEM, A Monash-Styled Dynamic Computable General Equilibrium Model of China	

GRANTS AND AWARDS

•	Junior Researcher Grant from Wageningen School of Social Sciences (WASS) (4000 €)	07/2024
•	Travel Grant from the LEB Foundation to participate in the XVII EAAE Congress (750 €)	06/2023
•	Excellent Master's Degree Thesis of Chinese Society (Awarded to the 0.1% best master	thesis in the
	research field of Plant Nutrition and Fertilizer Science)	08/2020
•	The First-Class Master Academic Scholarship of China Agricultural University (Top 1%)	10/2019
•	The First Prize of China Agricultural University English Speech Contest (Top 1%)	11/2018
•	The Third Prize of the National English Contest for Chinese College Students (Top 3%)	06/2015

SKILLS

- **Programming:** General Algebraic Modeling System (GAMS, advanced, e.g. model establishment), General Equilibrium Modelling PACKage (GEMPACK, intermediate), R (intermediate).
- **Modelling:** Applied general equilibrium (AGE) modelling, life cycle assessment (LCA), input-output (I-O) analysis, material flow analysis (MFA), and meta-analysis.
- **Software:** ArcGIS, Simapro, Latex, and Microsoft Office.
- Languages: Native to Mandarin Chinese. Strong reading, writing, and speaking competencies in English.
